Write the name of the person causing the problem and their address here

Dear neighbour

I am writing to let you know that I am affected by noise from your property.

The noise I am complaining about comes from, **write here what is causing the problem.** For example, your stereo being played too loud or the barking of your dog when you go out. It means that **write here about the effect the noise is having on you.** For example, I cannot sleep at night, I cannot enjoy being in my home anymore.

I would be really grateful if you could do what you can to reduce the noise you make and I hope we can come to an amicable and friendly agreement to prevent the problem from happening in the future.

Thank you
