Hi

It has been brought to our attention that the map for the local Plan 2040 is showing our private garden area opposite 14 Lye Valley as *accessible green space*. This is incorrect as it is private land owned by ourselves.

Please update this map to be correct and show it as *Private Open Space*.

Area being referenced

Site ID

| 381

This is the same for nearly all of this green space along this road as most of it is owned by various different private owners.

Please see attached the document showing the area we are referring too on the map and the pdf which is a site location plan showing the private gardens in this area (we have highlighted our private land).

This needs to be corrected to avoid any confusions and disagreements about this location now and in the future

Please let me know when this amendment has been done so i can confirm it

If you have any queries or wish to see the deeds which relate to this parcel of land which we own please contact us

Thanks for you help on this

I look forward to hearing from you on this soon thanks

Neil and Sandra Diesel
