

# DETAILS OF YOUR COMMENT

## Part B

Please read the accompanying notes before completing Part B. The notes explain what we mean by soundness and legal compliance. These are questions that we are expected to ask consultees.

Please use a new Part B for each point you are commenting on. Attach all completed forms to Part A.

**Q1.** Which part of the document do you wish to comment on? (please give the relevant paragraph or policy number)

Paragraph

Policies Map

Policy Number

Sustainability Appraisal

**Q2.** Do you consider that the document:

(a) is legally compliant?

Yes

No

(b) is sound?

Yes

No

(c) complies with the duty to co-operate?

Yes

No

**Q3.** Do you consider that the document is **unsound** because it is not: (tick as appropriate)

(a) positively prepared?

(c) effective?

(b) justified?

(d) consistent with national policy?

**Q4.** Please tell us below why you consider the document to be unsound, not legally compliant or fails to comply with the duty to co-operate. If you do believe the document is sound, legally compliant, or complies with the duty to co-operate you may use the box to explain why.

*Please use an extra sheet if completing a paper copy.*

**Q5.** What change(s) do you consider necessary to make the document sound or legally compliant? Please explain why this change will achieve soundness or legal compliance. (Please note that non-compliance with the duty to co-operate is incapable of modification at examination.) It would be helpful if you could suggest revised wording for the policy or text in question.

*Please use an extra sheet if completing a paper copy.*

**This is the end of the comment form**

## Policy R1

Q4: Logikor accept the need in principle to achieve net zero in accordance with the wider objectives of the Council, however there are significant concerns to the deliverability of such prescriptive requirements that could consequently harm the viability of large and major schemes because of other requirement burdens.

As per comments made in relation to Policy G9 Resilient Design & Construction, reference to the BREEAM method of measuring the sustainability of a project, infrastructure or building would be beneficial.
