

Publication of summary of approach

Providers must publish a summary of the survey approach used to generate published tenant perception measures. This must be made clearly available alongside each set of tenant perception measures published by the provider. It must include at a minimum:

a. a summary of achieved sample size (number of responses)	955 - LCRA & 5 - LCHO = 960 total																																																																																																																																																																																		
b. timing of survey	13/10/23 to 15/11/23																																																																																																																																																																																		
c. collection method(s)	Telephone with the option of an online link sent via email by the interviewer																																																																																																																																																																																		
d. sample method	Random stratified with quotas (tenure and ward)																																																																																																																																																																																		
e. summary of the assessment of representativeness of the sample against the relevant tenant population (including reference to the characteristics against which representativeness has been assessed)	<table border="1"> <thead> <tr> <th rowspan="2">Tenure</th> <th colspan="2">Population</th> <th colspan="2">Surveys</th> </tr> <tr> <th>No.</th> <th>%</th> <th>No.</th> <th>%</th> </tr> </thead> <tbody> <tr> <td>General needs</td> <td>7275</td> <td>95</td> <td>920</td> <td>96</td> </tr> <tr> <td>Sheltered</td> <td>285</td> <td>4</td> <td>35</td> <td>4</td> </tr> <tr> <td>Shared ownership</td> <td>58</td> <td>1</td> <td>5</td> <td>1</td> </tr> <tr> <td></td> <td>7618</td> <td></td> <td>960</td> <td></td> </tr> </tbody> </table> <table border="1"> <thead> <tr> <th rowspan="2">Ward</th> <th colspan="2">Population</th> <th colspan="2">Surveys</th> </tr> <tr> <th>No.</th> <th>%</th> <th>No.</th> <th>%</th> </tr> </thead> <tbody> <tr><td>Abingdon</td><td>85</td><td>1%</td><td>10</td><td>1%</td></tr> <tr><td>Barton and Sandhills</td><td>722</td><td>9%</td><td>96</td><td>10%</td></tr> <tr><td>Blackbird Leys</td><td>947</td><td>12%</td><td>119</td><td>12%</td></tr> <tr><td>Botley and Sunnywell</td><td>1</td><td>0%</td><td>0</td><td>0%</td></tr> <tr><td>Carfax and Jericho</td><td>183</td><td>2%</td><td>23</td><td>2%</td></tr> <tr><td>Churchill</td><td>746</td><td>10%</td><td>94</td><td>10%</td></tr> <tr><td>Cowley</td><td>348</td><td>5%</td><td>45</td><td>5%</td></tr> <tr><td>Cotteslowe and Sunnymead</td><td>288</td><td>4%</td><td>35</td><td>4%</td></tr> <tr><td>Donnington</td><td>372</td><td>5%</td><td>46</td><td>5%</td></tr> <tr><td>Headington</td><td>123</td><td>2%</td><td>15</td><td>2%</td></tr> <tr><td>Headington Hill and Northway</td><td>264</td><td>3%</td><td>34</td><td>4%</td></tr> <tr><td>Hinksey Park</td><td>372</td><td>5%</td><td>50</td><td>5%</td></tr> <tr><td>Holywell</td><td>36</td><td>0%</td><td>4</td><td>0%</td></tr> <tr><td>Kidlington</td><td>107</td><td>1%</td><td>13</td><td>1%</td></tr> <tr><td>Littlemore</td><td>529</td><td>7%</td><td>68</td><td>7%</td></tr> <tr><td>Lye Valley</td><td>230</td><td>3%</td><td>29</td><td>3%</td></tr> <tr><td>Marston</td><td>244</td><td>3%</td><td>31</td><td>3%</td></tr> <tr><td>Northfield Brook</td><td>316</td><td>4%</td><td>39</td><td>4%</td></tr> <tr><td>Osney and St Thomas</td><td>155</td><td>2%</td><td>19</td><td>2%</td></tr> <tr><td>Quarry and Risinghurst</td><td>260</td><td>3%</td><td>34</td><td>4%</td></tr> <tr><td>Rosehill and Iffley</td><td>594</td><td>8%</td><td>76</td><td>8%</td></tr> <tr><td>St Clements</td><td>258</td><td>3%</td><td>33</td><td>3%</td></tr> <tr><td>St Marys</td><td>42</td><td>1%</td><td>4</td><td>0%</td></tr> <tr><td>Temple Cowley</td><td>84</td><td>1%</td><td>10</td><td>1%</td></tr> <tr><td>Watton Manor</td><td>8</td><td>0%</td><td>2</td><td>0%</td></tr> <tr><td>Wolvercote</td><td>227</td><td>3%</td><td>29</td><td>3%</td></tr> <tr><td>Unknown</td><td>77</td><td>1%</td><td>2</td><td>0%</td></tr> <tr> <td></td> <td>7618</td> <td></td> <td>960</td> <td></td> </tr> </tbody> </table>	Tenure	Population		Surveys		No.	%	No.	%	General needs	7275	95	920	96	Sheltered	285	4	35	4	Shared ownership	58	1	5	1		7618		960		Ward	Population		Surveys		No.	%	No.	%	Abingdon	85	1%	10	1%	Barton and Sandhills	722	9%	96	10%	Blackbird Leys	947	12%	119	12%	Botley and Sunnywell	1	0%	0	0%	Carfax and Jericho	183	2%	23	2%	Churchill	746	10%	94	10%	Cowley	348	5%	45	5%	Cotteslowe and Sunnymead	288	4%	35	4%	Donnington	372	5%	46	5%	Headington	123	2%	15	2%	Headington Hill and Northway	264	3%	34	4%	Hinksey Park	372	5%	50	5%	Holywell	36	0%	4	0%	Kidlington	107	1%	13	1%	Littlemore	529	7%	68	7%	Lye Valley	230	3%	29	3%	Marston	244	3%	31	3%	Northfield Brook	316	4%	39	4%	Osney and St Thomas	155	2%	19	2%	Quarry and Risinghurst	260	3%	34	4%	Rosehill and Iffley	594	8%	76	8%	St Clements	258	3%	33	3%	St Marys	42	1%	4	0%	Temple Cowley	84	1%	10	1%	Watton Manor	8	0%	2	0%	Wolvercote	227	3%	29	3%	Unknown	77	1%	2	0%		7618		960

f. any weighting applied to generate the reported perception measures (including a reference to all characteristics used to weight results)	N/A																																																																																																																																																																																		
g. the role of any named external contractor(s) in collecting, generating, or validating the reported perception measures	Acuity Research & Practice Ltd Collecting, generating, validating reported perception measures																																																																																																																																																																																		
h. the number of tenant households within the relevant population that have not been included in the sample frame due to the exceptional circumstances described in paragraph below* with a broad rationale for their removal	N/A																																																																																																																																																																																		
i. reasons for any failure to meet the required sample size requirements summarised in Table below**	N/A																																																																																																																																																																																		
j. type and amount of any incentives offered to tenants to encourage survey completion	N/A																																																																																																																																																																																		
k. any other methodological issues likely to have a material impact on the tenant perception measures reported.	N/A																																																																																																																																																																																		

Notes from guidance in Tenant survey requirements (page 15)

36. The summary of approach must be proportionate to the complexity of the sampling methods employed and must include sufficient information to enable reasonable assessment of the validity of the published tenant perception measures. For example, the level of detail required from a relatively large provider applying stratified sampling and weighting of responses is significantly greater than that required from a small provider employing a simple census approach. Alongside this summary, all providers must publish the questionnaire(s) used to generate survey responses. This must include any additional questions and introductory or explanatory wording communicated to tenants alongside the TSM questions.

37. As part of the summary of the assessment of representativeness, all providers that own 1,000 or more dwelling units of relevant social housing stock must set out the following: proportion of the relevant (a) tenant population and (b) total survey responses that share the principal characteristics for which representativeness has been assessed (see illustration in Table 4). For these providers, a rationale for the choice of characteristics included must be set out with reference to tenant and stock profile. Where weighting has been used to ensure that the sample is as far as possible representative, (b) must reflect the weighted total survey responses used to generate reported TSMs.

38. The summary of approach must state if the provider has undertaken any tenant perception surveys which include TSM questions but has not included these responses in the calculation of the TSMs. A rationale for why this information has been excluded must be provided. The provider must include a summary of responses by survey collection method and the rationale for the survey collection method(s) chosen. Where there are any material year-on-year changes in survey methodology, for example in survey collection method(s), a summary of these changes must be included with the reason for any such changes. Further, any analysis of year-on-year changes in tenant perception measure performance published by the provider must refer to any material changes in survey methodology that are likely to have significantly affected satisfaction scores.

* Providers must take reasonable steps to assess, identify and remove barriers to certain groups of tenants participating in surveys used to generate the TSMs. In particular, this is in respect to tenants who share one or more protected characteristics under the Equality Act 2010, and in respect of duties of that Act. Barriers may include, but are not limited to, language barriers, visual impairment, literacy or lack of access to digital media.³⁰ Where necessary to overcome barriers to participation, it is permissible for surveys to be completed by a carer, another household member on behalf of a tenant or through an interpreter.

**Table

Table 5: Required minimum levels of statistical accuracy for overall satisfaction

Population	Required minimum statistical accuracy (margin of error at 95% confidence level)
Fewer than 2,500 dwelling units	+/- 5%*
2,500 – 9,999 dwelling units	+/- 4%
10,000 – 24,999 dwelling units	+/- 3%
25,000 dwelling units or more	+/- 2%
*Where it is not possible to achieve this level of statistical accuracy (for example for many providers with fewer than 1,000 dwelling units of relevant social housing stock), employing a census approach is sufficient to meet this requirement.
